## Unite for Inspiration, Collaborate for Innovation!

An Event with World-Cafe |  
Paneltalk | Top-Speakers &  
a strong Network

28/11/23

# Programme

📍 Lakeside Park: B11 Lakeside Spitz

🕒 9:00 AM - 5:00 PM

🎤 Moderation: Ute Pichler

## welcomes.

Opening & welcome by by state politics & BMK- Federal Ministry for Climate Action

## innovates.

Impulse Talk: Dipl.-Inf. Christoph Holz: "A recipe for success towards a sustainable and digital future!"

## talks.

Panel discussion about the Carinthian Innovation Ecosystem

## researches.

Presentation of Carinthian Research Focus Areas

## creates.

World-Cafe: Group sessions on research topics related to the economy growth

## connects.

Meetings between research institutions, partners, and companies

# World-Cafe

Collaborative research and economic growth...

Group sessions in a World-Cafe style...

secure your spot and get involved! 1:00 - 3:00 PM

## JOANNEUM RESEARCH DIGITAL

.... operates a DIGITAL TWIN LAB, where research infrastructure for creating spatial digital twins is being developed. The digitisation of real environments enables high quality surveys to simulate climate change measures.

## JOANNEUM RESEARCH ROBOTICS

... develops practical solutions for flexible digitised production. The focus is on performance optimisation and a valid robot safety assessment.

## KI4LIFE

... is a part of Fraunhofer Austria, focusing on Artificial Intelligence (AI) queries. They investigate the practical applications and industry benefits of AI methods.

## Lakeside Labs

... specialises in self-organising and interconnected systems. They use methods such as swarm intelligence to enhance the efficiency of production, logistics and energy systems.

## Silicon Austria Labs

... is a leading European research center for electronics-based systems. Research is conducted in areas such as microsystems, sensors, energy electronics, smart wireless systems, and embedded systems.

## Wood K plus

... is a leading research institution for wood and renewable resources in Europe. The focus is on material research, from raw materials utilising the synthesis power of nature to sustainable, bio-based products with optimised properties.

# COLLABORATION PARTNERS

Collaborate and cooperate successfully together –

**Consultation meetings** as the key to innovation success!

3:30 - 5:00 PM
